THIS MONTH'S COOL PEOPLE:

Here is a list of this month's contributors. I'm only listing the ones who actually get stuff in the mail because there's not enough space for much more. Many thanks to everyone who has supported PLA this month and in the past. And many apologies to anyone I stupidly left out of this list. Remember and fear these names.

SENSAI DOUG'S

KARATE

There is a record number of listener contributed stickers included with this newsletter, assuming you're not reading this years in the future. The PLA Radio and Food Stamp Tacos stickers were designed by Willy Bros and have both been used as crew logos on GTA 5.

Sensai Doug's Karate sticker was designed by Jaahso. The spray paint mailing label art was mailed to me by Corbin, aka Oregon Guy. And the other stickers featuring cats and VII and Consent stuff were mailed by 7 Stickers. Thanks everyone, for the designs and the stickers!

You're also all getting paper with braille on it, send in by Lea W., who is a real authentic blind

person.

Would you like to send me something that I'll send to about 100 people? As long as it's flat and fits in an envelope, I'll take it, probably even if it's an advertisement, but preferably if it's something really cool that listeners would enjoy seeing. I also love when people send me logos or designs that I might end up using as a future sticker or just as something to use on PLA websites, videos, etc.

You can mail things to PLA, P.O. Box 465, Albany, OR, 97321. or email things to rbc@phonelosers.org. I reserve the right to publicly make fun of your designs instead of using them.
